

# Little Grebe

*Tachybaptus ruficollis*

Category A

Breeding resident and winter visitor

A widespread breeding species in Kent, with large numbers seen at some localities outside the breeding season.

The full species account will follow but the breeding and wintering distribution maps based on the 2007 – 2012 BTO / KOS atlas are provided below.

Little Grebe at Botolph's Bridge (Brian Harper)

The distribution of breeding records recorded in the BTO/KOS Atlas (2007 – 2012) is shown in figure 1.

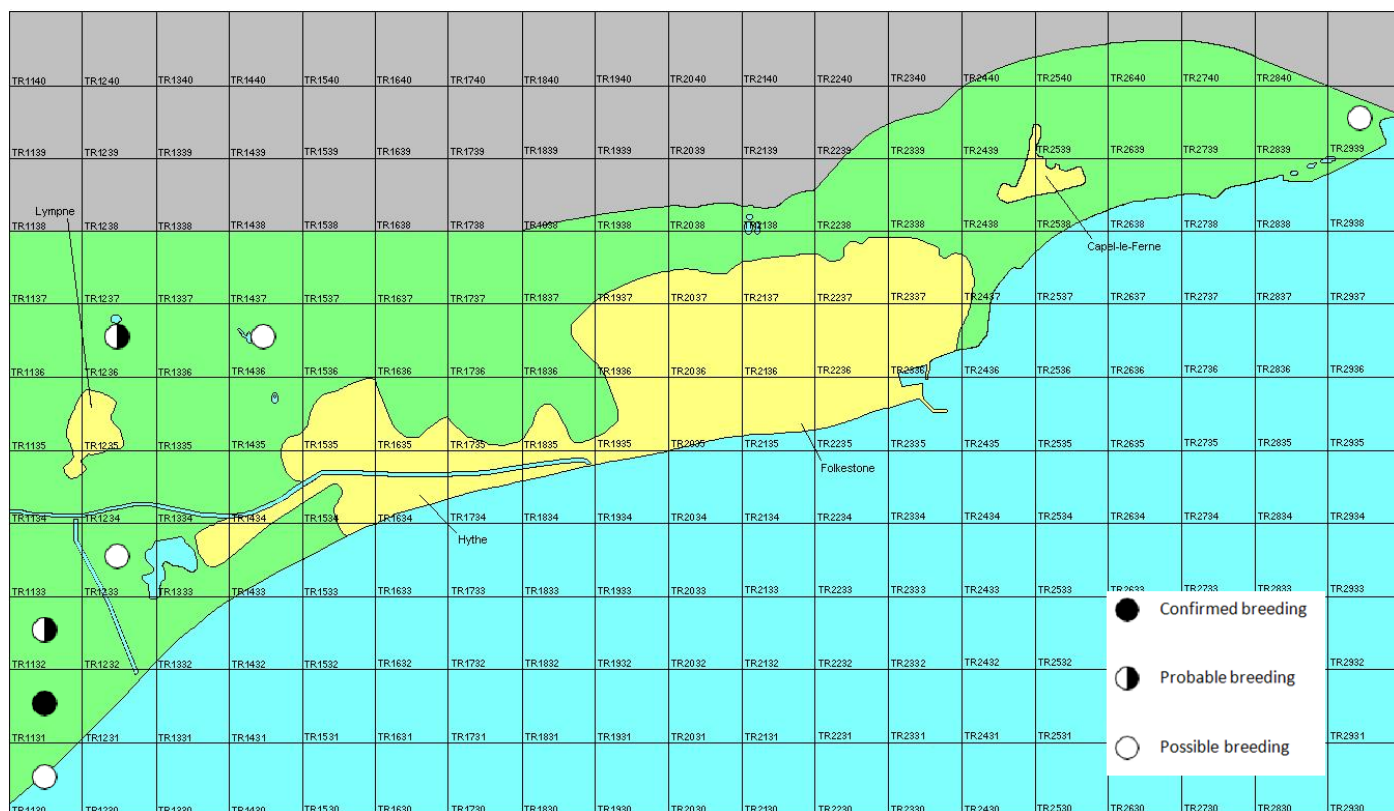

Figure 1: Breeding distribution of Little Grebe at Folkestone and Hythe by 1km square

The distribution of winter records recorded in the BTO/KOS Atlas (2007 – 2012) is shown in figure 2.
