

# Common Redshank

*Tringa totanus*

Category A

Winter visitor and passage migrant

A locally common, but declining breeding species in Kent, also a widespread passage migrant and winter visitor.

The full species account will follow but the breeding and wintering distribution maps based on the 2007 – 2012 BTO / KOS atlas are provided below.

Common Redshank at Botolph's Bridge (Brian Harper)

The distribution of winter records recorded in the BTO/KOS Atlas (2007 – 2012) is shown in figure 1.
