

Little Gull

Hydrocoloeus minutus

Category A

Winter visitor and passage migrant

A passage migrant to Kent, which is most numerous in autumn. Also a regular winter visitor, but rare inland.

The full species account will follow but the breeding and wintering distribution maps based on the 2007 – 2012 BTO / KOS atlas are provided below.

Little Gull at Seabrook (Ian Roberts)

The distribution of winter records recorded in the BTO/KOS Atlas (2007 – 2012) is shown in figure 1.

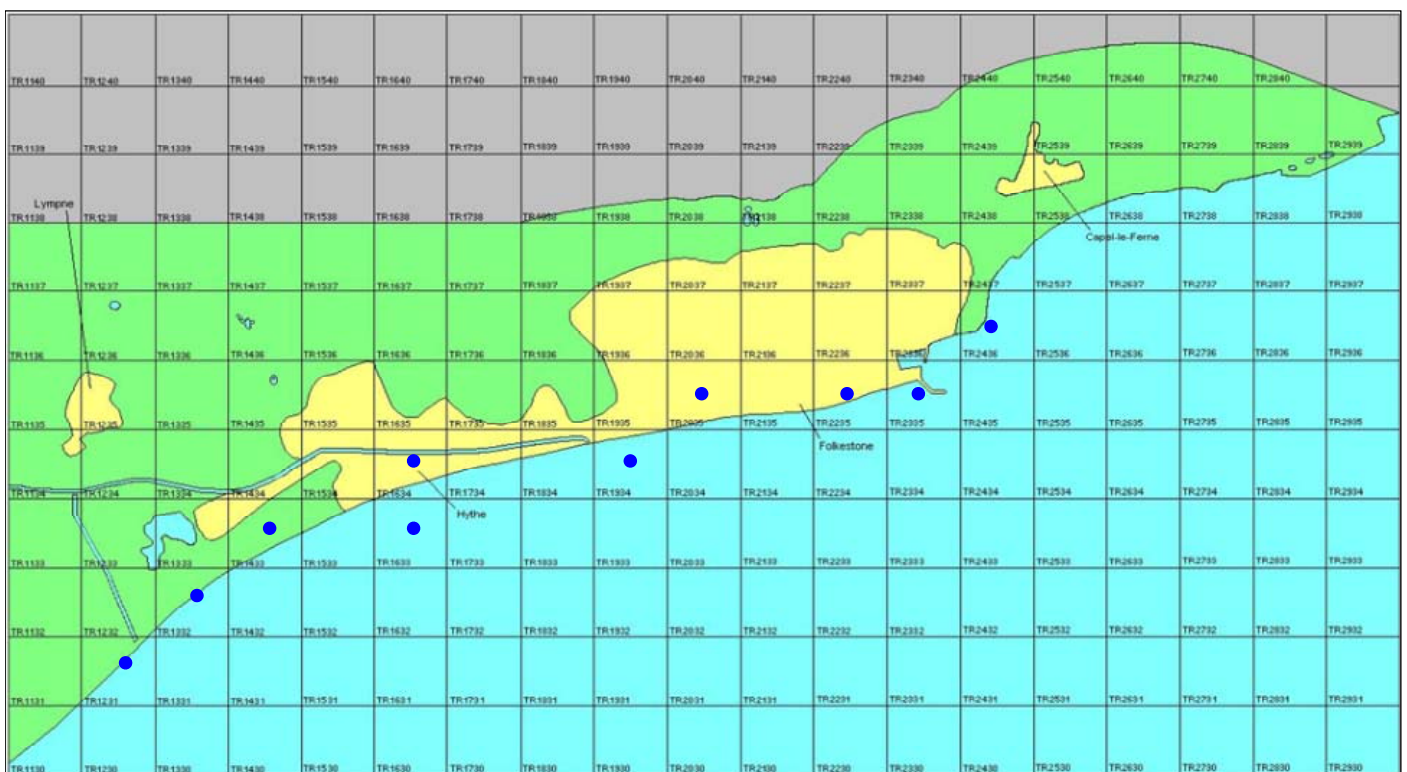

Figure 1: Wintering distribution of Little Gull at Folkestone and Hythe by 1km square
