

Jay

Garrulus glandarius

Category A

Breeding resident and passage migrant

A widespread breeding species in Kent, which is also a passage migrant in varying numbers, and occasionally irruptive.

The full species account will follow but the breeding and wintering distribution maps based on the 2007 – 2012 BTO / KOS atlas are provided below.

Jay at Seabrook (Brian Harper)

The distribution of breeding records recorded in the BTO/KOS Atlas (2007 – 2012) is shown in figure 1.

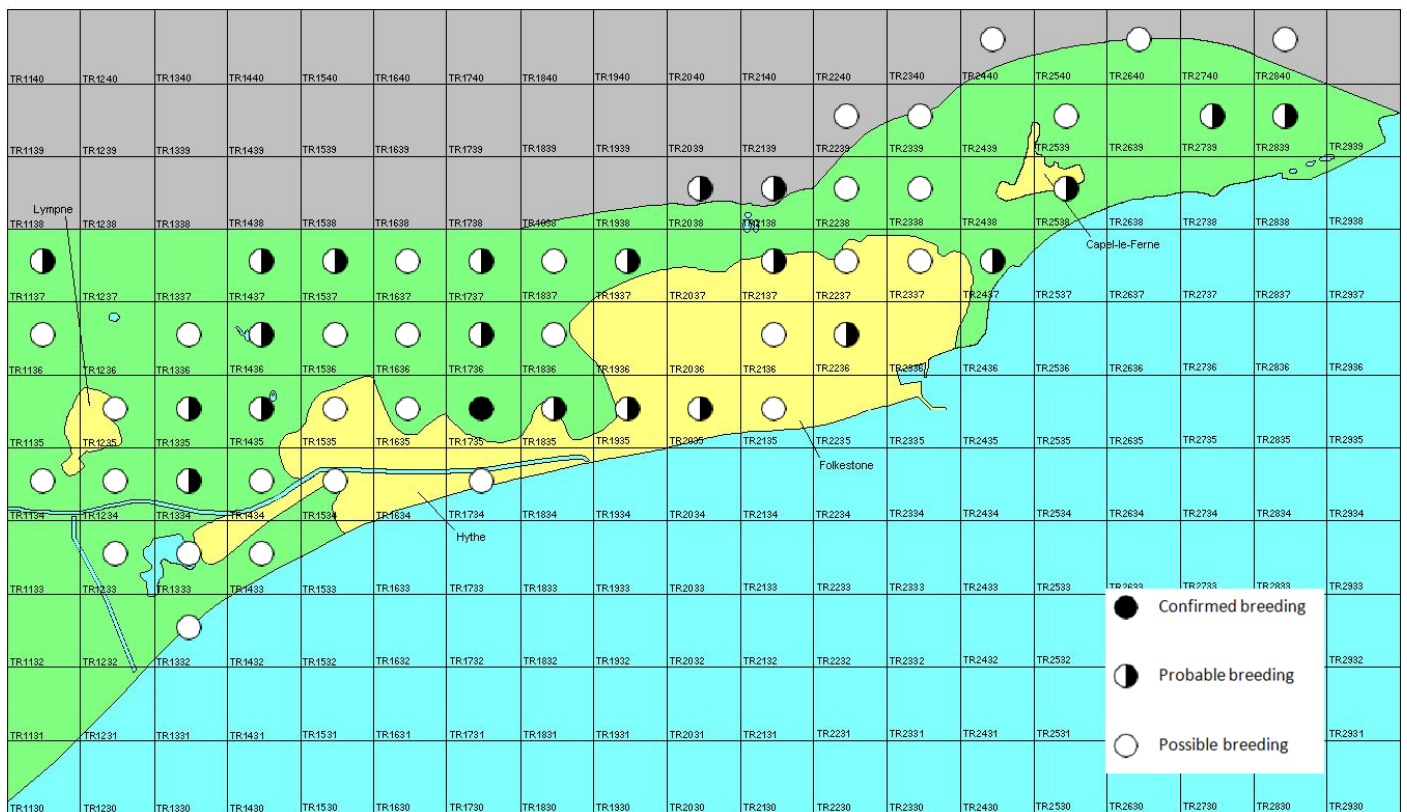

Figure 1: Breeding distribution of Jay at Folkestone and Hythe by 1km square

The distribution of winter records recorded in the BTO/KOS Atlas (2007 – 2012) is shown in figure 2.
