

Marsh Tit

Poecile palustris

Category A

Breeding resident

A thinly distributed resident in Kent, which is apparently declining.

The full species account will follow but the breeding and wintering distribution maps based on the 2007 – 2012 BTO / KOS atlas are provided below.

Marsh Tit at West Hythe (Brian Harper)

The distribution of breeding records recorded in the BTO/KOS Atlas (2007 – 2012) is shown in figure 1.
