

Common Treecreeper

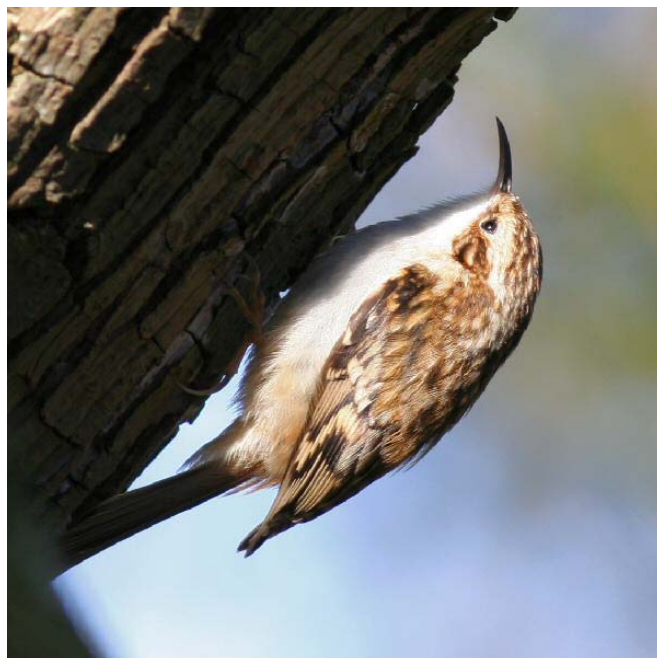

Certhia familiaris

Category A

Breeding resident

A widespread resident in Kent, but mostly absent from some areas such as Romney Marsh, Thanet and the North Kent Marshes.

The full species account will follow but the breeding and wintering distribution maps based on the 2007 – 2012 BTO / KOS atlas are provided below.

Common Treecreeper at Saltwood Castle (Brian Harper)

The distribution of breeding records recorded in the BTO/KOS Atlas (2007 – 2012) is shown in figure 1.

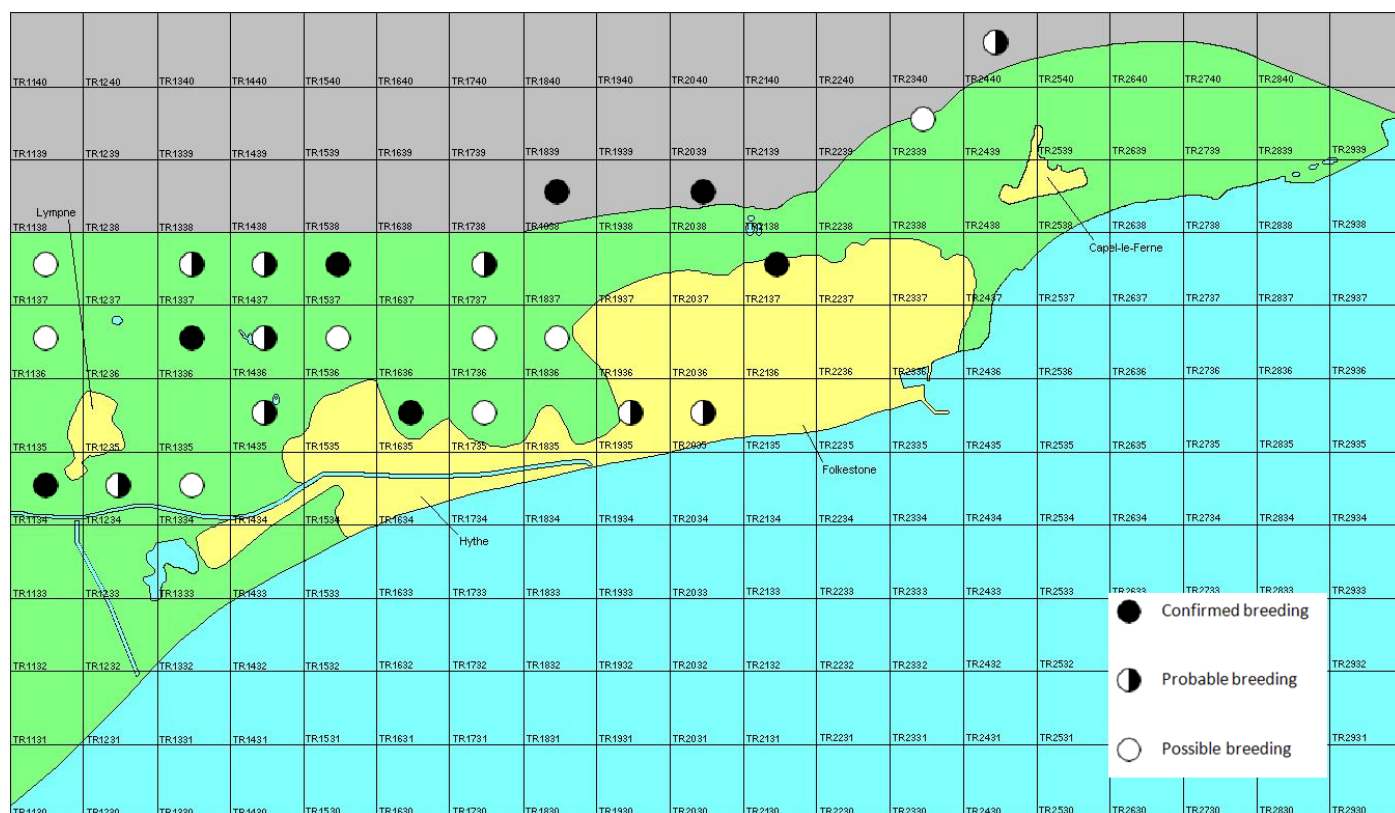

Figure 1: Breeding distribution of Common Treecreeper at Folkestone and Hythe by 1km square

The distribution of winter records recorded in the BTO/KOS Atlas (2007 – 2012) is shown in figure 2.
